Cutting Loose from the National Turf Association—Turf Meetings for the Coming Season.

Representatives of the various turf associations of this coast assembled in San Francisco last evening, for the purpose of organizing a central Turf Association and arranging a programme for a racing and trotting circuit. There were in attendance the President of the California State Agricultural Society, Major M. Biggs; Harmon Bay, Chico Stock Association; J. Babcock, Nevada State Agricultural and Mechanical Society, and the Reno Jockey Club; Shatton and McLane, Northern District, Marysville; Fred Arnold, San Joaquin, Stockton; Messrs. Seales and Wilson, Santa Clara, Valley San Jose; Messrs. Grim and Hinchman, of the Bay District Association; T. J. Rose, of the Southern District Society of Los Angeles; and J. C. Simpson of the Oakland Trotting Park.

Major Biggs was chosen Chairman and T. W. Hinchman, Secretary.

FALL MEETINGS.

Joseph C. Simpson of this city, Robert Beck, W. Shipper, Harmon Bay and J. Babcock were appointed a committee to arrange the date for the respective meetings this season. This report, which was adopted, recommended the opening meeting to be held at Chico, September 3d, and the subsequent meetings as under: Marysville, September 10th; Sacramento, September 17th; Stockton, September 24th; San Jose, October 1st; Oakland, October 8th; Reno, October 15th; San Francisco, October 23d; Los Angeles, November 5th.

SECESSION.

J. C. Simpson, of this city, offered a preamble and resolution to the effect that the National Turf Association, on account of its being so far removed from this coast, is not and cannot be of any service to us; and therefore,

Resolved, That a Pacific Coast Turf Association be formed; that the Convention appoint a Committee to draw up the By-laws, rules and regulations, and that a report be made on August 1st, 1877.

The Bay District Fair Association was decidedly opposed to the proposed segregation, but after an animated discussion the resolution was adopted by vote of Associations as follows: Ayes—Chico, Oakland, Reno (Nevada), Los Angeles, Pacheco, San Jose. Total, 6. Noes—Marysville, Sacramento, Stockton, San Francisco. Total, 4.

Mr. Grim assured the Convention that if the circuit were run under rules to be established by the Pacific Coast Turf Association (in embryo) that the Bay District Association would withdraw from all participation.

THE NEXT CONVENTION.

The following Committee on By-laws and Rules was appointed by the Chair to arrange for the completion of the organization contemplated by the above resolution: J. C. Simpson of Oakland (Chairman), H. W. Seale of Mayfield, Fred. Arnold of Stockton, William H. Chamberlain of Reno, Nevada, and Harmon Bay of Chico; and on motion of Mr. Simpson the committee was instructed to report to a Convention to be held in San Francisco on the 1st day of August next.

CIRCUIT CLASSES.

There was a good deal of discussion as to the circuit classes, and it was finally voted that there should be three trotting classes, and two running, each association supplementing whatever others they saw fit. The trotting classes were 2:25, 2:25 and 2:30; the running, mile heats, *free for all*, and two mile heats, *free for all*. The amount of the premiums to be at the discretion of the individual societies, the entries to the trotting classes to close the 20th of August, the running the night before the race.

The Convention then adjourned subject to the call of the President.

BOARD OF EDUCATION.

Changes Among Teachers—Bills Allowed—Miscellaneous Business.

The Board of Education held an adjourned meeting last evening, President Cole in the Chair. Present—Directors Cole, Hobart, Lynch, Shanklin and Swett, and Superintendent Campbell.

The minutes of the last meeting were read and approved.

RESIGNATION AND REPORTS.

A communication was received from Miss Pinkham, resigning her position as teacher of the Fourth Grade, Durant school, for the purpose of accepting the Principalship of the preparatory department of Mills' Seminary. The resignation was accepted, and the Secretary was instructed to inform the lady that the Board regretted being obliged to forego her valuable aid in the public schools.

COMMUNICATIONS.

A communication was read from Mrs Cabery, applying for reinstatement in the Department upon the expiration of her leave of absence. Placed on file.

From Mr. Otis, Principal of Durant School, asking prompt action by the Board in the matter of providing a piano for the school. Referred to the Committee on Text Books, Music and Drawing.

From Miss Meek, reporting ready for duty, her leave of absence having expired. Read and filed.

BILLS.

Mr. Swett from the Finance Committee, reported upon and recommended payment of the following bills, which report was adopted: Alameda Macadamizing Company, $370 80; F. R. Jands, $81. Total, $451 80.

The bill of W. H. Parkinson for $7 50 was read and referred to the Finance Committee.

COMMITTEE OF THE WHOLE.

On motion, the Board then went into Committee of the Whole. Mr. Shanklin in the Chair, to continue the examination into the merits and qualifications of teachers, preparatory to selecting for the ensuing term. At 10.45 the Committee rose, reported progress and asked leave to sit again.

The Board then adjourned until 7 o'clock this (Thursday) evening.

Report of Professor J. M. ROBERTSON.

GENTLEMEN:—In presenting a synopsis on the appearance of your land as to the existence of its carboniferous deposits and the extent of the COAL fields, and what outlays may be necessary, I now give you according to agreement a general report thereon.

I find it decidedly of a carboniferous nature. There is nothing of the inorganic structure as you ascend the mountain to warrant the existence of a carboniferous epoch, until you reach the out-croppings of shale on your own land where the first tunnel was commenced, and where had this tunnel been constructed in a proper manner, your coal measures would have been developed without the necessity of opening a tunnel on the western end of the land, where the present workings are being carried on.

On examining the carboniferous fields from east to west, I find tracings of coal the whole length of the ground, some on the surface and others in the gulches, formed by washings and denudation; here the strata are well defined. The course or trend of the measures are seemingly east and west, with a dip to the north from the angle of 40° to 60°.

These calciferous sandstones and coal measures promise to be in large quantities, to what extent at present it is impossible to say, until a thorough survey and superficial opening has been made.

Then we may more certainly conclude what extent of ground these measures cover and the number of stratas. Nevertheless the ground has every possible showing that *the coal basins are extensive*. How far they extend in depth it would be impossible to assert positively.

Their course appears to lie from west to east and they alternate with beds of silicious sandstone, calcareous sandstone, carboniferous shale, magnesian limestone, some ironstone and clayey marls. Associated with these are fossils mixed with bituminous shales, such as the family of Acephalees (oysters), and ammonites, the extinct order of Molluscus, those belonging to the carboniferous period. These fossils and superencumbent strata would warrant me in assuming that an immense estuary once existed where the coal measurers now crop out, and perhaps extended beyond MOUNT DIABLO.

The extent of this coal formation would seem to conform with an extended estuary which had been washed by the ocean, as these fossils which are found in the shales and sandstone are litoral species belonging to the coast of California.

With these remarks I subscribe respectfully,
J. M. ROBERTSON.
Chemist and Geologist.

S. N. PUTMAN Esq, President Oakland Coal Mining Company.

DEAR SIR:—Referring to the above report of Professor Robertson, we can corroborate all he says and more, for *we expended over ten thousand dollars* in the 720 feet tunnel, which you are about to complete, and nothing but our unexpected financial embarrassment prevented us from fully developing the coal beds which we know exist in your land. We have taken out coal of a good quality—and burned it while the Mine was in our possession.

Yours truly,
T. H. HATCH,
R. M. BRANGON.

LEVER POWER!
GREAT INVENTION!
United States Patent Secured
WILLIAM MEYERS, OF WEST OAKland has invented a pump, which, for economy and simplicity, has no equal. One horse can pump as much water by this process as five horses can by any other process known. Steam, horse, water or hand power can be used to a much better advantage than by the present system of working pumps. Its cost is 80 per cent. below the average cost of steam pumps, and its pumping capacity and speed is twice the average of the present pump. The use of it can well be recommended to farmers for irrigating purposes; to owners of all classes of sailing crafts and steamboats; miners and mill owners. One of these pumps is now in operation on the large vegetable plot of Domingo Grandona and Frank Sereman, at West Oakland, located at the head of Wood street. In an ordinary run of 10 hours, with one horse, 90,000 gallons of water is pumped from a depth of 40 feet. These machines, fully equipped, only costs $350. Orders solicited. Address, William Meyers, 1463 Seventh street, or Oakland Postoffice.

The War and Its Effects.

It is the opinion of statisticians that the Eastern war cannot fail to create an extraordinary demand for American breadstuffs. Whether this will be a result is a question of much importance to the people of California, as we shall have considerably less grain to spare this season than we have shipped in previous years. Reliable statistics upon the subject of our supply and the probable demand will therefore be of general interest just now. Dr. Edward Young, Chief of the Bureau of Statistics of the Treasury Department, has collected together some statistics bearing upon the subject, and it is upon information given by him that the following is based: According to a very careful and thorough statistical exhibit recently made by the French Government, the total cereal production of Europe amounts at present to an average of 4,994,000,000 bushels per annum. Of this Russia alone furnishes 61,000,000,000 bushels, or nearly one-third of the whole; Germany, 712,500,000 bushels; France, 687,500,000 bushels, and Austria, 550,000,000 bushels. The production of this country is set down at 1,537,250,000 bushels. Thus this country, with a population of forty millions, produces 39½ bushels to each inhabitant, while Europe, with a population of 297,000,000, produces only about 19½ bushels per head. According to the most moderate estimate the average quantity of cereals necessary for the consumption of each inhabitant is fourteen and nine-tenths bushels per annum. We learn from the above referred to source that the amount of cereals per inhabitant produced by the various States of Europe is as follows:

	Bushels.		Bushels.
Roumania	39 60	Ireland	13 65
Denmark	32 15	Turkey	13.65
Russia	28 27	Finland	12.10
Prussia	24 00	Great Britain	11 53
France	18 00	Saxony	10 10
Hungary	18 70	Servia	10 42
Bavaria	17.50	Holland	8 90
Sweden	15.74	Norway	8 51
Outman Dutchies	14 00	Greece	8 51
Belgium	13.47	Italy	7.70
Spain	13.47	Portugal	7.70
Austria	12.91	Switzerland	6.70
Wurtemburg	12.91		

We have now before us figures which show that all the States that come after Sweden in the above table have to obtain grain supplies from other countries. Tables covering the years 1860 to 1872 show that the United States supplied England during that period with 28.5 per cent. of her total imports of wheat including flour, against 24.7 per cent. from Russia, and 17.2 per cent. from Germany. In the same period England imported 43 per cent. of her total importations of maize from this country. Up to this year Roumania and Southern Russia, to a lesser degree, have been our principal competitors in the supply of maize. In 1876, England had a good harvest, and yet received from abroad 44,391,152 owts of wheat, as follows:

	Cwts.
United States and Canada	21,719,936
Russia	8,769,280
British India	3,279,887
Germany	2,311,148
Egypt	2,218,337
Turkey and Roumania	1,283,851
Chili	984,019
France	291,350
Denmark	242,618
Other countries	3,408,350
Total	44,391,152

It is evident from the present condition of affairs in Europe that the demand for American breadstuffs will be increased in the neighborhood of thirty per cent., in case of the prolongation of the war.

A SWINDLER ARRESTED.

Three Ounces of '49 Gold for $3.

Off and on for two or three weeks a man has been prowling about outside saloons and other business houses in this city, and pretending to be "hard up." He carries upon one finger a massive gold ring, weighing nearly three ounces, the gold in which he panned out with his "own hands, near Hangtown, in '49." It is a precious souvenir, and he would sooner part with the finger than the ring; but hunger is pinching and he will pawn the ring for three dollars in order to get something to eat and a place to sleep until his first week's wages are due, as he has just obtained a job. The

CONFIDING SALOON KEEPER

Planks out the $3, places the ring upon his own finger, treats the rascal to a glass of beer and bids him good-bye—hoping never to see the fellow again, and so far has not been crossed in his hope; for the ring is bogus and is not worth more than twenty cents. Last night the fellow attempted to pawn a second ring to the same beer slinger, when the latter stepped out and called in officer Dodge. The officer promptly arrested the swindler and conveyed him to the City Prison, where he was charged with attempting to obtain money

UNDER FALSE PRETENSES.

The fellow gave the name of Thompson, and said he was a Norwegian by birth. In his clothing were found a number of pieces of tissue paper in which other rings had doubtless been wrapped, which have probably been pawned to other unsuspecting parties. Thompson told several conflicting stories about himself and the rings, and will be arraigned in the Police Court to-morrow to plead. Parties who may have been taken in by this swindle should attend the Court and see they can identify the swindler.

Alameda Amusements.

The entertainment given in Harmonia Hall, Alameda, last night, for the benefit of Christ Church (Episcopal), was well attended and was a very pleasing affair. The cantata of "Esther" was rendered in very creditable style by amateurs, dressed in rich and appropriate costumes. The entertainment will be repeated this evening, and to-morrow evening "The Flower Queen" will be presented in the same hall by the young ladies and children of Alameda, to be followed by a popcorn and calico party.

Infantile Wanderers.

Yesterday morning a four-year-old son of Mrs. Wood and a daughter (about the same age) of Mrs. Ahern, residing near the corner of Grove and Twenty-seventh streets, wandered away from home, and were picked up in Temescal, a distance of nearly three miles, by Minnie Huber and Ida Wood, two young ladies residing at the latter named place. The young ladies brought the little waifs to police headquarters, from whence they were restored to their anxious parents.

NOTES AND EXCERPTS.

Stuart Robison did do one clever thing in his acting of Gillypod. At the dinner-table he took a piece of stale bread in his hand and rapped it with his knife, at the same time exclaiming: "'Tis but a little faded flour." The audience invariably failed, to appreciate the pun, and he was obliged at last to bolt it.

The smoke of the leaves of belladona is better than that of stramonium for relieving persons suffering from asthma. The belladona leaves should be smoked in a long pipe and drawn deep into the chest. When the sufferer is so much oppressed that he cannot use the pipe, the breathing of an atmosphere in which the leaves are burned will be found beneficial.

The Iron says that the Russians have been constructing a torpedo-boat, which, at a distance of six feet below the surface of the water, is calculated to discharge from a submarine cannon a rifled torpedo shell 12 feet long and 1 foot in diameter with such force against the object to which it is directed that it will go one mile in a straight line under water.

Capt. Burton has found that the native reports of the existence of gold and silver mines at Mugnah are true. Mugnah is at the foot of a range of mountains two day's march from the Gulf of Akabah. He discovered besides the old furnaces and a number of inscriptions, the remains of what was a large-walled city, which was probably the capital of ancient Media.

Mr. Bergh, the friend of dumb animals, is made happy by a proposition to devote the proceeds of the dog-show in New York to the foundation of a home for sick, homeless, and injured dogs, on the plan of the institution that has existed in London for ten years. As there were 23,000 paying visitors to the Hippodrome on one day, the sum realized will be considerable.

The Society of the Love of Jesus lately organized in London is composed of one Vicar and a number of ladies between the ages of 16 and 30. No member is permitted to read a book not approved by the Vicar or Warden; dress must be simple and inexpensive; no improper places of amusement are to be visited, and no church which is not in communion with the Church of England.

Emile Ollivier was unanimously elected to the French Academy shortly before the war with Germany, for which he was justly held in a large measure responsible. He has never been accorded the usual reception, and a recent application for the performance of the ceremony has been sternly refused. There are some things that even a Frenchman can never forgive, and one of these is an assault upon the honor of his country.

The wholesale abolishment of Pension Agencies, to save the pitiful sum of $150,000 a year to the Government, while largely increasing the probable expenses of the pensioners, is received with disfavor in many quarters. The Cincinnati Gazette sums up the objections when it says that, upon the whole, it is not commendable economy that places burdens upon the needy pensioners, and exposes them to the ravages of notaries and sharpers who will not hesitate to take advantage of their necessities and ignorance.

In Vienna all the public clocks are moved in practical synchronism with an astronomical time-piece by means of pneumatic tubes. Every minute a wave of compressed air is sent along the tubes, causing the hands of the large dials set up in various parts of the city, to move a distance corresponding to that division of time. The troublesome and expensive electric system has been superseded by this plan, which is the invention of the Austrian engineer, M. E. A. Mayrhope.

The following are reported by a Herald correspondent to be the exact words used by Brigham Young in a part of his sermon at Salt Lake City on Sunday: "Our persecutions have been great. At times they have been unendurable. The blood of the martyrs has been shed, and has not yet been atoned for; but we are not afraid of our enemies, for the Lord is with us. They need not try to overcome us. There has been bloodshed in the past, and blood is again to flow. We have seen how this our own nation has persecuted us, and we can expect to be misunderstood and persecuted by other nations. The persecutions we have suffered are as nothing compared with those which we shall yet be called upon to endure. Our enemies have had blood, and if they want more they can have a plenty of it."

Secretary Sherman has discovered that the defendants in the late Whisky-Ring civil suits in St. Louis settled with the Government on remarkably easy terms. Take the case of Ulrich a fraudulent distiller. He offered to compromise by paying $27,000; the judgment obtained against him by his former persecutor, Pat Dyer, was $100,000. A short time before the expiration of Grant's term, while Morrill was Secretary of the Treasury, Taft Attorney-General, and Greene B. Raum Commissioner of Internal Revenue, the Government accepted $15,000 in full of civil damages. The thing that is puzzling Sherman is, why the offer of $27,000 was declined and $15,000 accepted. This is a style of business he cannot understand: Why did the government refuse the $12,000? He is trying to find out from Raum.

There is a very severe famine prevailing in some districts of China, notably the Chili and Shantung districts, where large numbers of the inhabitants are literally dying of hunger. A correspondent of the London Times says: Two Europeans had who the courage to carry some provisions to a small village in Shantung returned horror-struck with what they had seen. The inhabitants were putting an end to their sufferings by suicide, and in one family the father and mother, to avoid witnessing the death-agony of their starving children, had buried them alive. The famine had been caused by the failure of the harvest for two years running in districts which are generally fertile. Neither grain nor fruits are to be had at any price, and the land seems to have been scorched by a burning wind. The grass by the roadside has been devoured to its very roots by the famishing people, who have stripped all the trees of their bark and foliage. As the winter has been exceptionally severe, many of the sufferers have died from cold as well as from hunger, and the appearance of the survivors is most ghastly. When fine weather returns, these provinces, formerly so populous and flourishing, will have been converted into deserts, and there will be a lack of hands to till the ground for next year's crop. The functionaries, the bonzes, and the missionaries, without distinction of nationality or creed, have joined their efforts to those of the Government to arrest the famine; but charity, on however a large scale practiced, is insufficient to meet all the wants. It is worthy of note, however, that an anonymous donation, equivalent to $15,000, was sent some time ago from Japan, and it has since been ascertained that the donor is a Japanese, who for many years was a domestic servant in China, but who by a marriage had become possessed of a lucky large fortune, part of which he has generously used in promoting the entente cordiale between the two countries.

Entertainment To-night.

William H. Barnes, Esq., Past Grand Master of the Independent Order of Odd Fellows of the State and editor of the New York "Heart and Hand," of New York, will give one of his inimitable drawing room entertainments at Odd Fellows, Hall this (Thursday) evening, in which he will be assisted by Prof. J. J. Alexander, Bandmaster of the Twelfth Regiment, and one of the finest musicians of New York City. Speaking of Mr. Barnes and his entertainment in Washington City, the National Republican says: "He is a genius—a live, comic, serio-comic, sentimental and tragical genius—a whole company of artists in and of himself. His entertainment is equal to an evening with Mark Twain, John B. Gough, John E. Owens, and Offenbach combined."

CHRONIC NASAL CATARRH.—Experience has proved that in a majority of cases Nasal Catarrh becomes the starting point of consumptive development, the disease being transmitted to the lungs both by nervous connection and continuity of surface, and so frequently has this course been noticed that Nasal Catarrh is now regarded as a premonition and one of the very earliest manifestations of Consumption.

METHOD OF TREATMENT.—By the treatment which we have originated and pursued for years with almost uniform success, a complete and permanent cure of this repulsive disorder can be effected. This we have demonstrated in thousands of cases, representing the disease in every form, and in all its various stages of development. Our applications are made to reach the diseased parts in the most direct and positive manner, instantaneously penetrating every cell and cavity of the head communicating with the nostrils, and subjecting every portion of the affected membrane to the healing action of the remedies employed, with the most beneficial results.

In this manner we have treated the most obstinate cases of Nasal Catarrh with complete success, after all other attempts had failed.

The following are the distinguishing features of our method of practice.

1. A single application gives immediate comfort, and relieves at once the most distressing symptoms.

2. The hardened secretions are softened and removed, causing the greatest amount of relief to the sufferer.

3. The ulcerated surface is deodorized, every unpleasant smell is removed, and the breath is returned to its natural sweetness and purity.

4. The poisonous action of the disease upon the throat is neutralized and arrested, threatened consumption averted and a complete and radical cure is fully established.

5. The applications do not cause the least pain or distress, and do not interfere with diet or business.

Dr. Van Hummel, at Parlor 9, Cosmopolitan Hotel, San Francisco, can be consulted on all diseases of the Mucous Membranes, such as Nasal Catarrh, Deafness, Diseases of the Throat and Lungs, Piles, and Diseases of Women. No money in advance, and satisfaction guaranteed in all cases. Hours from 9 to 3 A. M., and 7 to 8 P. M. *

Please take Notice and Govern Yourself Accordingly.

Dr. Draper takes pleasure in announcing to his former patrons, and friends, that he has resumed the practice of his profession in Oakland, and notwithstanding the reports of designing doctors and others, that he has no diploma and cannot, practice medicine in this State he would respectfully inform the public and all interested, that his diploma and certificate authorizing him to practice medicine and surgery in this State can be seen at his office, No. 5 Bartlett House, between the hours of 9 A. M. and 3 P. M., or at his residence any evening. *

Where are your Rules and Regulations?

Since Harry Mattern, Jr., the People's Independent Butcher, published in the TRIBUNE his interview with a reporter, the members of the Butcher's "Ring" are wild. The only thing the public now demand is that they publish their so-called rules and regulations. They dare not and they know it. But why is it thus? *

Social Party.

Another of those very pleasant social events will be given by Captain Baxter at the Baxter House on San Pablo avenue, Saturday evening, May 26th. The House is easy of access, and under the perfect management of the genial host has become very popular. This is another one of a series of socials to be given during the season, and a fine time is guaranteed. *

Camilloni, of Stall No. 9, City Market, has on exhibition one of the largest fresh halibuts ever caught in San Francisco bay. It weighs thirty pounds. A CORNER IN PHYSIC!

Is There a Ring Among Doctors?

It would seem but fair to allow the sick to judge for themselves the merits of a mode of treatment. What cares a sick man for a diploma? What he wants is to meet the individual, whether an M. D. or a layman, who can relieve his pains and cure him of his suffering, and never a word will he utter against the method, or grumble whether you call it Allopathy, Homeopathy, Hydropathy, Electropathy, or Baunscheidtism.

The provisions of the Quackery Bill are unconstitutional. It gives to a certain school of medicine a sort of monopoly of the business, and the character of the law is such as to controvert the free exercise of individual right. It allows Allopathy to set up a medical inquisition, based upon as bigoted special doctrines as ever characterized the Jesuit doctors of the dark ages. It allows a certain school (by its possessing the physical power to do so) to trample down all novel modes not grown old in practice, or vain and ridiculous enough to claim respectability by the possession of a "calf's skin."

The arrest of Dr. Henry Renkin, a Baunscheidtist, for practicing the healing art without a diploma, clearly shows that the drug doctors view with rage and disgust the growing popularity of any new and successful mode of treatment, and to protect their decreasing business are compelled to resort to the enactment of like bigoted special laws, as were framed in the middle ages, to sustain an intolerent institution which could not obtain the support of advanced minds.

Gentlemen of the pestle and mortar, an intelligent public protest against special privileges for any school of medicine. The public alone shall give a verdict according to the results accruing from the practice of your several methods, and thereby proclaim the measure of respect and confidence you are severally entitled to. By the way, Shakespeare says, "Throw physic to the dogs."

The trial in the above case has been set for the 31st inst. and the people of Oakland should be present and judge for themselves of the relative claims of the two schools to practice. *

It is a Fact.

It is a fact that Dr. Price's Special Flavoring Extracts of Lemon, Vanilla, Orange, Rose, Nectarine, Almond, etc., are the finest flavors for cakes, puddings, ices, creams and pastry, that can be made. *

Wholesale Fruit Depot.

Messrs. Donaldson and Rhoda have opened, at 316 Twelfth street, a wholesale fruit market. A consignment of fresh berries and fruit received daily. For sale at San Francisco prices. *

IN THE TOILS.

A Neat Piece of Detective Work.

Stolen Valuables Secured, The Burglar in Jail and a Full Confession Obtained before the Party Robbed is Aware of the Loss.

Miss Emma Reeves came out from "the States" a short time since, and took up her temporary abode in Room 40, Hensley House, San Jose. Last Sunday she went to San Francisco to visit some friends, and had not returned last night. On leaving her room she locked it securely and took the key with her, leaving in a trunk in the room a large quantity of valuable jewelry. Last Sunday night, a few hours after she left San Jose, her room was burglarized, her trunk rifled and her jewelry stolen. She perhaps first learned of her loss by a telegram sent her this morning by Chief of Police, James V. Tisdale of San Jose. Neither the landlord of the hotel, the Chief of Police, or any one else in San Jose dreamed that the burglary had been committed, until yesterday afternoon, when

CAPTAIN D. H. RAND

Of the Oakland police, telegraphed Tisdale that he had "the burglar who robbed Room 40, and the jewelry stolen from Miss Reeves." This was news in San Jose, and the announcement there of the name of the burglar doubtless created great astonishment—he having been connected with the office of the hotel for several months, and was a young man highly respected and respectably connected. On Tuesday Captain Rand ascertained by accident that a stranger had left a package containing jewelry at a certain house in this city, and had gone to San Francisco. That officer at once took possession of the jewelry—which was enclosed in a large cigar box—and sent an accurate description of every article and of the individual depositing it here to Chief Ellis on the wrong side of the bay. He then quietly awaited

THE RETURN OF THE BURGLAR,

In the event he should elude the vigilance of the San Francisco Police. Yesterday the young man returned by the noon boat, and Captain Rand at once escorted him to Police headquarters. The Captain, after examining the contents of the cigar box on Tuesday, ascertained that the man had evidently made a raise by pawning or selling certain articles after his arrival in this city and before going across the bay. He sauntered into a place suspected and inquired and made examination, but the party in charge said he had not taken in any pledges since the 17th, and his books confirmed his statement—but Captain Rand thought that a book could be made to lie as well as a book-keeper. Acting upon the impression, as soon as he got the young burglar into his private office and drew the box of jewelry on him, he asked sternly: "What articles were those you disposed of yesterday to ——, on ——street, and how much did you get on them?" "Two silver ladles, one pitcher, one service tray, one fruit knife and seven spoons," promptly responded the young man, thinking the detective had found out all about his operations; "and I got only $13 on them, although they are worth close on to $100."

THE ARTICLES STOLEN

Consisted of the foregoing, a massive gold bracelet set with a diamond (which he had broken off and disposed of), a beautiful silver napkin ring marked "S. J. P.," another marked "E. Reeves," a solid silver spoon marked "M. E. M.," two gold pen and pencil holders, a large cameo breastpin, ear rings and sleeve buttons and scarf pins in endless variety, set with precious stones, and a great number of trinkets of various sizes, kinds and value. The young man gave his real name, but requested the Captain to book him as James Hicks, as his married sister, whose husband formerly resided in Oakland (and is well known throughout Alameda county), has many friends residing in this city. Inasmuch as his real name will get into print anyhow, when he comes to trial, we may as well state that it is James Wolfe. He

MADE FULL CONFESSION

Of the crime; told who the articles belonged to, and the whereabouts of the lady. Being familiar with the ins and outs of the Hensley House, he had no trouble in effecting an entrance into the room, where the absent lady's jewelry was deposited, and her absence he argued, would enable him to dispose of the articles and escape suspicion. He gave his age at 23 years. This morning young Wolfe wrote a letter to his sister (who now resides in San Jose), saying that he supposed she would be grieved to learn that he was "in jail for having sold Emma's jewelry, while drinking and tempted." This letter he signed James Wolfe. He says it is the first offense he ever committed.

Captain Rand this morning received a dispatch from Chief Tisdale, of San Jose, stating that he would at once inform Miss Reeves of her loss, obtain a warrant and come after the prisoner.

THE RACES.

Eight Heats Yesterday and No Decision—Occident and Bodine this Afternoon.

The race of the 2:35 class, at Oakland Trotting Park, yesterday afternoon, created a great deal of interest, which was heightened by the withdrawal of Bushy John. There were seven entries, and eight heats were had without deciding the race. The first heat was won by Vashti in 2:32¼; the second by the same, in 2:35; the third by Prophet, in 2:31¼; the fourth by Coquette, in 2:36. The fifth heat was the

MOST EXCITING

Of all and created intense delight among those who had been buying the field in the pools, for Blue Mountain Boy, who had been lagging behind in the other heats, made a splendid dash and recorded 2:36¼, coming in two lengths ahead of Coquette, as second. The sixth was a dead heat between Blue Mountain Boy and Coquette, in 2:36, Prophet being third and Vashti distanced. The seventh heat was decided in favor of Blue Mountain Boy, in 2:41¼, and then the result was postponed until to-day at 2 P. M., after which those celebrated horses, Bodine and Occident, will trot for a special purse of $1,500. They are both in excellent condition, and a large and enthusiastic gathering at Oakland Park to witness the contest between these celebrities, may be expected, the more so as the track is in admirable condition to make fast time.

A Dangerous Nuisance.

Sickness to a considerable extent prevailed, for a week or so past, in the immediate vicinity of Eighth and Webster streets. Attending physicians attribute it to the condition of the yard in the rear of a lodging-house below Ninth street. A wooden sewer has bursted and the stagnant water is allowed to remain on the surface of the ground, causing a stench which is both unbearable and dangerous.

Walkers Matched.

George Armstrong, of San Leandro, recently challenged the world to produce a man to walk a match with him of 500 miles for $500, or more, and yesterday Robert Alten, of this city, accepted the challenge, and deposited his money, $500, with John Holden, of Oakland. The walk will probably take place in San Francisco within the next fortnight.

LaGrange and the San Francisco Mint.

Resignation of Treasurer Wyman.

Reduction in Railroad Salaries.

Resignation of Treasurer Wyman.

WASHINGTON, May 24th.—United States Treasurer Wyman has tendered his resignation on account of ill health. Assistant Treasurer Gilfillan will succeed him.

More Reports about LaGrange and the San Francisco Mint.

The *Times* Washington special says, Lindermann, Superintendent of the Mints, will institute inquiry into the charges made against LaGrange, Superintendent of the Mint at San Francisco. On the whole subject Linderman is silent for official reasons, but there is good reason to believe from other sources that the arrival of LaGrange will be the beginning of the end of the Federal Ring on the Pacific Coast so far as it is fed by Federal patronage. With the reports and charges against LaGrange, old and new, no man is better acquainted than Secretary Sherman, who was Chairman of the Committee on Finance when La Grange's name came before it.

Presbyterian General Assembly.

CHICAGO, May 24th.—In the Presbyterian Assembly this morning the Committee on Reduced Representation reported that the representation of the next General Assembly would be materially reduced. The report was adopted.

The committee to whom was referred the report of the Board of Publication reported that eight new books had been published, aggregating 117,000 copies; the reprints of former works aggregated 375,000. Six periodicals, aggregating 7,842,100 copies, had been put forth, and the Sunday-school and other periodicals make a grand total of over 500,000 copies given out monthly.

The Commission employed ninety-eight missionaries. They have by sale distributed 67,000 volumes, and gratuitously 39,000 volumes and 4,274,813 pages of tracts.

The receipts were $237,000; expenses, $216,000. They asked for more help, and made a number of recommendations which were considered separately.

Ex-Governor Chamberlain on the Southern Question.

NEW YORK, May 24th.—D. H. Chamberlain writes to the Tribune that he "does not support the President's Southern policy. He continues: "I have never regarded the weakness of the Republican party at the South as arising chiefly from over anxiety of the colored men to hold office as was stated in your Washington correspondence. In this particular I do not think the record of my own race is better than that of the colored. Incompetent and unworth officers have not been marked by any color lines."

Reduction of Passenger Rates.

NEW YORK, May 24th.—The Times says: Vanderbilt having telegraphed from Europe instructing the New York Central Lake Shore to reduce passenger rates from Chicago to New York from $23 to $15, other trunk roads will make the same reduction. At the same time that Vanderbilt telegraphed to his own roads he informed the officials of the Michigan Central of the change. The latter last night said they would at once reduce their price to $15.

Indicted Bank Officers Plead Guilty.

HARTFORD, May 24th.—In the United States District Court yesterday John C. Tracey, ex-President, and James L. Tracey, ex-Cashier of the Farmers' and Mechanics' National Bank, plead guilty; the former to making false returns, and the latter to perjury in swearing to them. The National Bank Examiner stated the losses to the bank would be $600,000.

Improbable Rumors about Evarts.

NEW YORK, May 24th.—The Sun says: We are not surprised to hear rumors that Evarts' stay in the Cabinet is not likely to be long. A significant fact in connection with these rumors is that Evarts has just renewed the lease of his house in New York, but has not taken an extended lease of his house at Washington.

Theological Seminary Commencement.

NEW YORK, May 24th.—The annual commencement of the Methodist Episcopal General Theological Seminary took place here to-day. Right Rev. Bishop Potter officiated, assisted by Bishop Scarborough of New Jersey and Bishop Paddock of Massachusetts. About seventy students were present, of whom nineteen were graduates, and nine received diplomas of the degree of Bachelor of Sacred Theology.

She is a white oak vessel, and has been in constant service for the past five years, and was reported unseaworthy a year ago.

Reduction in Railroad Salaries.

PHILADELPHIA, May 24th.—The Board of Directors of the Pennsylvania Railroad Company have decided to make a reduction of 10 per cent. in the salaries of all employees, beginning at the President and continuing downward through all grades of the various departments. FOUND DEAD.

An Aged Stranger Dies in Bed at the Cosmopolitan House.

Last Monday evening a respectable looking man, somewhat advanced in years, applied for a room at the Cosmopolitan House, corner of Seventh and Broadway, and spent the night there. On Tuesday morning he took his valise and left, but returned for a bed again the same evening. Yesterday his room door remained locked, but the landlady, thinking the man was taking a good rest, left the room undisturbed until 2 o'clock in the afternoon, when one of the chambermaids, suspecting that all was not right, peered in through the transom and

FOUND THE MAN DEAD.

The door was then forced open and the man's body taken to the Morgue. He was a man apparently about sixty years of age and was dressed and had the general appearance of a respectable farmer. No money was found on his person, nor anything that would lead to his identification. A small paper containing a white powder was found in his pocket. The Coroner was unable to tell whether or not it was poison; but as the old man showed no signs of death by poison, it is supposed that he died from natural causes. A post mortem examination will be made to determine the cause of death and an inquest will be held by Coroner Helmer at 4 o'clock this afternoon.

P. S.—Dr. Woolsey made a critical examination of the body this afternoon, and found a number of slight abrasions thereon—about the neck, under the arms and on the outside of the left knee—but came to the conclusion that deceased came to his death from opium poison. A small handkerchief was found on deceased on which was written the name "N. B. Durden."

AN ATTORNEY POISONED.

Zach Montgomery Goes for a Gopher and Gets Poisoned.

Everybody in Oakland, and nearly everybody in California knows Hon. Zach Montgomery. He was poisoned to-day. After eating a hearty breakfast, including a beefsteak from the parched plains of the San Joaquin, Mr. Montgomery took a quantity of strychnine, and going out to the numerous gopher holes which make his grounds on the north side of Telegraph avenue, between Forty-first and Forty-second streets, look like a sieve, he took small quantities of

THE DEADLY CRYSTALS

Between the thumb and finger of his right hand and carefully distributed them about the gopher holes. He then came down town to appear professionally before the Court Commissioner, and while tugging away at a contumacious witness, discovered that a large fiber of the San Joaquin beef was still remaining between two of his lower front teeth. Not having a tooth-pick about him, he used a nail of his right (strychnine) thumb to dislodge the beef, and in doing so disloged several small crystals of the deadly poison which had stowed themselves away under the nail. His mouth was soon filled with a bitter taste, and he at once realized the situation. An early and vigorous application of C. C. water removed the cause of his discomfiture, and this afternoon he is hammering away at that witness as vigorously as ever.

A Coincidence.

A singular coincidence happened in the County Clerk's office on Monday last. A gentleman named Henry L. M. Griffith applied for a marriage license, and the Clerk asked him his age. He replied: "I was 33 yesterday." The Clerk (Eben C. Farley) looked at him with astonishment, and replied that he was 33 on that day. It is not often that one meets another born on the same day.

GOLD ABROAD.

Long years ago I heard a story told
Ca ! in his ruddiest yellow, sauntered Gold,
Right smiling through the country, till at last
In the dark forest, shining as he passed,
He saw a forge; and then he heard a cry,
Heart-felt, heart-piercing, ring as he went by
"There must be earnest cause" the Gold stood still,
Thinking this thought "for a sound with such a thrill
Of suffering in them" Then approaching nigher,
He saw the Iron, glowing from the fire.
Upon the anvil, heavy stroke on stroke
Drew sighs and groans The Gold looked on and spoke:
"Thou fervent Iron! wherefore dost thou cry?"
"Know'st not the hammer, then?" shrilled the reply
"O I am Gold, all men find joy in me:
Gold knows the hammer, but can silent be"
"Braggart, thou art too w... to feel the smart"
"I hope it, though the sledge should break my heart."
Then moaned the metal in the fiery glow:
"To thee the hammer is a foreign foe!
But I am Iron often such as he;
A brother strikes! 'Tis this distresses me."

MINING NOTES.

Report of the Committee Appointed to Re-establish Public Confidence.

The committee appointed at the meeting of bankers and brokers held in San Francisco on the 15th instant, have prepared the following circular, a copy of which will be sent to the officials of all companies listed on the San Francisco Stock and Exchange Board:

Gentlemen At a meeting held in the Palace Hotel on Tuesday, the 15th inst., to consider causes of the present depression in mining interests and discuss some practical remedy therefor, a committee was appointed to communicate with the management of our various mines with a view of ascertaining how far expenses now generally incurred can, with just propriety, be reduced.

The importance of some action to this end has been publicly urged. Accordingly we invite your kind co-operation in the duties assigned us, and most respectfully ask you to assist in furnishing such data as appear necessary to a proper consideration of the subject.

It seems desirable to collect the average opinion of different managements controlling mines upon the Comstock, which when properly digested, may, it is hoped, prove of great value to the permanent interest of stockholders.

Wholly disclaiming any attempt to submit the private affairs of any company to unwarrantable scrutiny for merely personal ends, we simply solicit such ready information bearing upon the possibility and practicability of effecting reasonable reductions in present mining expenses and management as you may cheerfully accord.

We desire to ascertain the entire cost of running each mine, seeking to compile statistical evidence as to whether present current expenses are generally within limits consistent with a faithful discharge of requisite duties, in properly prospecting, developing, extracting and working ores.

We await your views on the subject, which it will afford us pleasure to receive, accompanied by statistics of the mine under your direction, and invite your general aid and prompt action in all matters relating to this investigation.

Very respectfully,
J. W. COLEMAN, Chairman of Committee.
J. W. Coleman, A. H. Lissak, Jr., William Sharon, J. C. Flood, A. Austin, M. J. McDonald, J. D. Fry, Committee.

F. M. Peralta Arrested.

Francis M. Peralta, of this county, was arrested in San Francisco yesterday upon a charge of having obtained a carriage of the value of $225 from Holcomb & Co., of that city, by means of false representations. He obtained the property upon the statement that he was the owner of tenneres of land in the Peralta Homestead, in Alameda county, and it is now alleged that the representation was untrue.

TELEGRAPH BREVITIES.

The whole eastern coast of Acheen has assaulted to the Dutch.

Prosecutions have been instituted against several papers for insulting President MacMahon.

The engineers on the Lehigh Valley Railroad have been notified of a proposed reduction in their wages, and they will consider the matter on Sunday.

The Secretary of State is considering what measures shall be recommended in the Cabinet for the representation of the United States in the Paris Exposition.

The master ship-builders on the Clyde met at Glasgow yesterday and resolved that the present position of the dispute does not afford any basis for settlement by arbitration.

The Postal Commission left Washington to-day, for another Southern tour, accompanied by Postmaster-General Keys and Messrs. Vail and Marshall, Superintendents of the Railway Mail Service.

A Paris dispatch says: Duke Decazes has issued a circular protesting against the supposition that the new Ministry entertains any idea of departing from neutrality or tolerating the manifestation of any party in France against foreign Powers.

General Logan has been tendered the Brazilian mission. A Cabinet meeting decided on the appointment on Friday, and Secretary Evarts wrote to Logan, asking his acceptance. Logan, who is in Washington, refuses to give any reasons for his declination and even declines to admit that the appointment was tendered him.

The President has issued an executive order, reserving the Pagosa Hot Springs and one square mile of land surrounding them, in Colorado, as permanent public property. These springs are considered valuable for medicinal purposes, and this action is taken with the view to preventing future difficulties concerning them, such as have caused the trouble in the case of the Arkansas Hot Springs.

The Tribune's Rockford, Ills., special says: The Coroner's Jury to-night, after thirteen days' work, have rendered a verdict in the Court House case, which is fully sustained by public opinion here. They find that Henry L. Gay, the architect, through neglect to provide for the great amount of weight called for to complete the building according to his plans, is guilty of the deaths of the deceased. That the Board of Supervisors failed to use necessary caution in examining the plans and specifications, and acted unwisely in not employing a competent architect to superintend the construction.

A Sense of Weariness

Is often felt by persons who cannot locate any particular disease. If they work, it becomes labor; if they walk, they soon tire; mental efforts become a burden, and even joys are dimmed by the shadow of this weakness which is cast over their lives. Recourse is had sometimes to stimulants of a dangerous character. The advice of physicians to refrain from active labor produces no happy results. Why? The system is debilitated and needs to be built up properly. PERUVIAN SYRUP will do this very thing. Like the electric current, it permeates the entire system, and harmonizing with the corporeal functions, it raises up the enfeebled and brings the color to the cheek again, and hope to the despondent. It does its work promptly and well. Sold by all druggists.

THE MACKIE Hydraulic Sewer Trap

THE UNDERSIGNED HAS JUST RETURNED from Washington with full and complete patents for his new Hydraulic Sewer Traps

These traps are constructed on strictly scientific principles and are a perfect guard against the passage of sewer gases into the house. They are provided with a disinfecting chamber, which being filled once in three weeks throws down a disinfectant every time the water flows through the trap, keeping the pipes always sweet and clean The gases most fatal to human life are those which, passing through the Syphon trap when filled with water, flow into our rooms almost if not quite inodorous, and it is especially to guard against the passage of the most dangerous refined gases that this trap is designed.

THE MACKIE HYDRAULIC SEWER TRAP Has been examined by the most eminent Scientific men in this State, who have noted its workings in metal and glass, and also by our highest authorities on sewerage in the Eastern States, and in addition to their unanimous approval, they have expressed their opinion that it will be the means of saving hundreds of thousands of human lives, and for that purpose is the most important invention of the present century.

We are Prepared to Furnish These traps with fair discount to the trade, or will sell State or Territory rights. We guarantee their perfect working if properly used. The public are invited to visit our factory, corner of Valley and Locust (23) streets, Oakland, and watch their working in metal and glass.

REDUCTION IN GAS

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GAS LIGHT CO, September, 16, 1876

IN CONTINUANCE OF THE POLICY FOLlowed by this Company since its formation, and to lower its rates as warranted, the Oakland Gas Light Company hereby give notice, that from and after the 1st day of October next the price of gas will be reduced to

$4 PER THOUSAND CUBIC FEET.

Considering the value of coal and labor, the limited use of gas and the distance between the points of consumption Oakland is one of the most cheaply lighted cities in the Union.

Some of the advantages of cheap gas are

1st. A daily saving in the cost of one of the necessaries of life.

2d. A decrease in the number of fires caused by the use of the dangerous distillates of Petroleum.

3d. A saving of human life by substituting stationary lights for the brittle of lamps.

It is hoped that this further reduction will be favorably accepted by the public, and that the Company will receive many accessions to the number of its consumers.

V. L. EASTLAND,
Superintendent Oakland Gas Light Co.

NOTICE OF CAUTION.

CANDIDATE'S ANNOUNCEMENT.

Determined to set myself before the public as a candidate for their suffrage, I take this method of letting you know that I will to-night open the campaign. After being in the Auction business for a number of years on this Coast (originally known as "Little Billy,") in the old, original Commercial street Auction House, I have just as good a right as any other man has to run for office. The political campaign is now upon us. I shall proceed to cast my horoscope over the troubled political waters to-night at the NOVELTY AUCTION HOUSE, 813 Broadway, where any man with different views from the above may meet me in forensic combat.

ARTIFICIAL STONE PAVEMENT,

Schillinger's Patent.

THE UNDERSIGNED IS THE SOLE AND exclusive owner of Schillinger's Patent for the State of California. Said patent was granted to John J Schillinger, July 19th, 1870, and was re-issued May 2d, 1871. The said Patent has been repeatedly sustained and damages and costs inflicted upon infringers of it by the Courts The following are the claims of the Patent, viz

1. A concrete pavement laid in detached blocks or sections substantially in the manner shown and described.

2 The arrangement of tar paper or its equivalent between adjoining blocks of concrete, substantially as and for the purposes set forth. All property owners having artificial stone pavements laid in detached blocks or sections are infringing one or both of the claims of said patent, as are also the parties laying such pavements and every property holder is hereby notified that he will be prosecuted for every infringement of said patent in which he participates.

The great success of this pavement has induced many irresponsible persons to infringe the patent, and at the same time wrong their employers by contracting to lay the pavements and then doing inferior jobs.

The undersigned is prepared to lay sidewalks, garden walks, carriage drives, floors, etc

All work guaranteed.
